Periodicals and Publications Ordered by USSR
for 1953

25X1A2g

1. The attached material consists of lists of publications and periodicals purchased in the US by the USSR for 1953. The lists are divided according to dated orders and the amount of the order is shown when it was available.
2. Some orders are in their entirety. Those orders which are not complete are the result of scanning and only the unusual and significant titles are listed.
3. The quantity of each title ordered over one appears opposite the title. Where no number appears after a title, it may be assumed that only one copy of that publication or one subscription, in the case of periodicals, was ordered. However, some titles are repeated in the same order and in some instances the same title appears on different orders. This repetition is as it occurred on the different invoices and no final count of the total number of copies of any given title was made.
4. In some cases the publisher is listed together with the publication; in other cases the author is shown; and in others the address in the USSR to which the publication is being sent is shown.
5. All journals and publications, including daily, weekly, monthly and quarterly publications, were subscribed to for one year (1953) only. No subscriptions were ordered for longer than one year.
6. Abbreviated titles appear as they were on the invoices.
